Dear Friends and Fellow Gardeners

You are to be congratulated for your good gardens. American gardeners have done a splendid job which has contributed vitally to our war efforts. Buying war bonds and planting a garden both are urged by our government. Flowering and ornamental plants bring relief to strained nerves and solace for the sad heart. Growing your own food is patriotic, economical, and affords you more security.

Spring Hill is a 96 year old family enterprise backed by three generations of experience. Our organization is operating with a reduced staff of employees and inventory, therefore we have decreased our advertising and sales. Special emphasis and attention are being made to pack and ship our 1945 Spring catalog orders promptly. Spring Hill guarantees same high quality at conservative prices. Yours for a successful garden in 1945.

Sincerely yours,
Thomas B. Kyle, President

SPRINGHILL'S DOUBLE GUARANTEE OF SATISFACTION

Honesty and Reliability a safeguard to you—an asset to us.

We guarantee all plants to be state inspected, free from disease, true to name and to reach you in tip-top growing condition. Your success depends on proper handling, planting, soil, weather conditions, etc., which are beyond our control. Regardless of the above facts Spring Hill will be responsible for half your loss and replace all plants that fail to grow at half the purchase price if notice is made by October 1st of the same year plants are shipped.

Second: Our success depends on your patronage and it is our sincere desire to deliver high quality plants so you can recommend friends to 'Buy of Spring Hill'. We are particularly concerned and interested in the welfare and satisfaction of our customers. Spring Hill urges you to let us know immediately if any plants fail to arrive in good condition or if you are dissatisfied in any way. **GUARANTEED SATISFACTION.**

**MAIL YOUR

WE SHIP AT
PROPER TIME**

SPECIAL TRANSPORTATION NOTICE

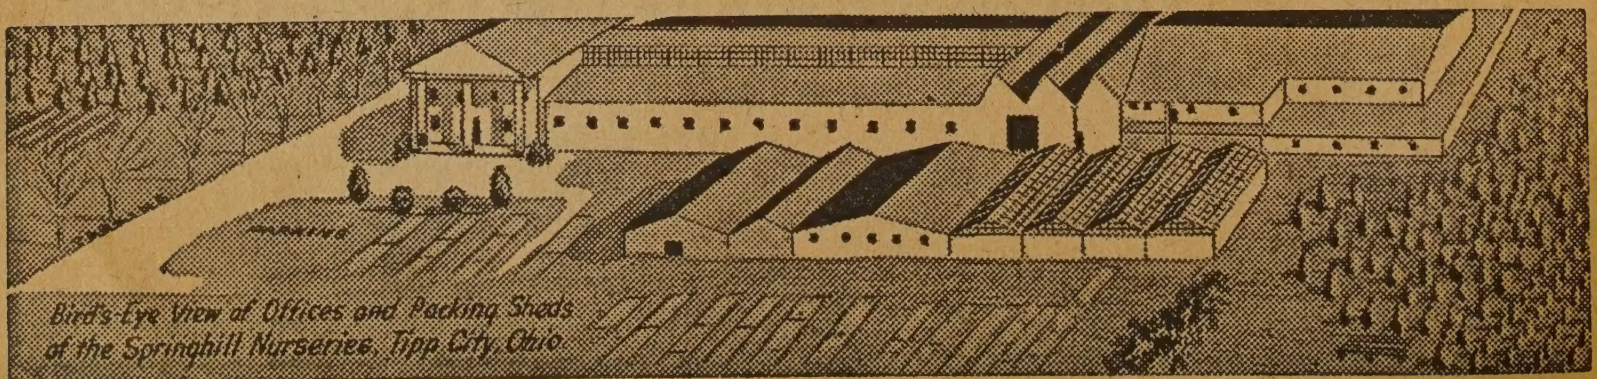

When nursery stock or plants are to be shipped by parcel post, **PLEASE ADD 10% FOR PACKING AND POSTAGE.** This enables us to give our customers the lowest possible selling price for first class, government-inspected stock. If you do not include postage for delivery charges your order will be shipped express collect, or if requested we will bill you for the parcel post. Most orders of \$3.00 or more can best be shipped by express. Ohio customers please add 3% sales tax.

PAYMENT

Our terms are cash with order. Money should be sent by check, postal money order, express money order, draft, or registered mail. No C.O.D. orders for the duration, because of our lack of experienced office help. Sorry.

WAR STAMPS ACCEPTED

Mail war stamps in payment of your plant order from Spring Hill. Many people feel the importance of purchasing war stamps. We will accept these in payment of your order. In that way Uncle Sam will have the money, you will have the plants, and Spring Hill will have the stamps which will be turned into war bonds. Spend your money so that it will do the most good.

Dear Friends and Fellow Gardeners

THERE ARE ALARMING SHORTAGES OF MOST NURSERY STOCK. This year's shortages of fruit trees, roses, small fruits and many varieties of ornamental plants are really serious. The supply will not be great enough for the demand. TO AVOID DISAPPOINTMENT WE URGE EARLY ORDERS.

Spring Hill's fruit trees, small fruits, vegetable seeds, roses, evergreens, etc., are all of good standard A. A. N. grades. You can depend on good quality although the serious drought has reduced the size.

Nursery stock is alive and perishable, therefore requires expert care. SPRING HILL has the buildings, equipment, experienced organization, etc., to guarantee and properly handle your order. Why take chances? Order from Spring Hill, a reliable family enterprise backed by 3 generations: 96 years experience. Operated in the interest and for the welfare of our customers. SATISFACTION GUARANTEED.

ANOKA—A NOTEWORTHY APPLE

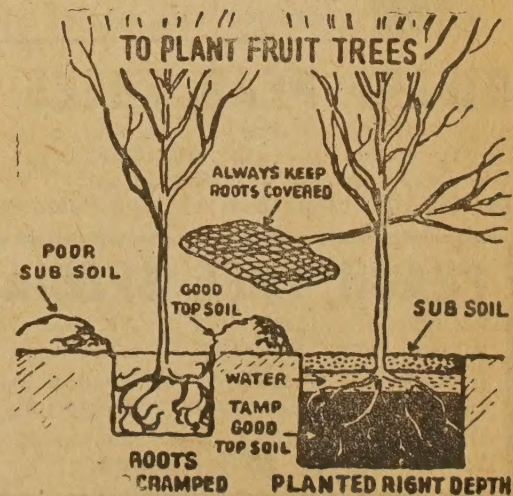

This noteworthy apple, created by one of America's master plantsmen, often bears fruit the first year. No waiting for those wanting fruit immediately. Hardy in all climates, this great apple has proved to be one of the very best summer apples, with large, well-formed, red, striped fruits excellent for eating and cooking. Remember—no waiting. Better order a tree now and have apples next summer. 3-4 ft. tall, number 5C300, \$1.00 each; 3 for \$2.85; 10 for \$8.75. 6-7 ft. tall, number 5A300, bearing age, \$1.95 each; 3 for \$5.55; 10 for \$18.00.

DIRECTIONS FOR PLANTING FRUIT TREES

Trees should be planted immediately after arrival, if possible. After opening package, keep roots covered with damp cloth—never expose to sun and air.

1. Notice cut opposite.
2. Dig hole large enough so that roots will not be crowded. Make separate pile of fertile top soil—the first six or eight inches first removed from hole.
3. Tree must be planted two inches deeper than grown in nursery, or two inches deeper than old soil mark around tree.
4. Put fertile top soil around roots breaking up so that there are no air pockets. Fill hole about two-thirds full, pressing earth down firmly. Water well. Fill hole to top.

The first year a mulch of well-rotted manure should be used to hold moisture and build fertility. No other fertilizer should be used until the second year. Do not let fertilizer or manure come in contact with roots or body of tree.

DWARF APPLE TREES

Trees never grow large and may be planted 10 by 10 in your back yard, or in hedges 6 ft. apart. Each spring the branches are filled with fragrant pink buds and white blossoms as beautiful as any lowing crab. The blooms, foliage, fruit, and graceful miniature tree all make Spring Hill's dwarf apples ideal for landscaping in gardens where space is restricted. Available in Red Delicious, McIntosh, Grimes Golden, Yellow Transparent; we reserve the right to substitute an equally good variety unless advised otherwise. 2 and 3 yr. old fruiting age, 2 to 4 ft. tall, \$3.50 each; 3 for \$9.75, Number 6P300.

A basket of Spring Hill's Champion peach picked from our 3-4 ft. size tree the third summer after planting. Write for special quantity prices.

DWARF PEAR TREES Due to grafting on a special dwarfing rootstock these little trees may be planted in a border or restricted area the same as dwarf apple. Plant 10 feet apart and trim to the desired shape, the trees grow 6 to 10 feet in height. Following their beautiful white blossoms in Spring these amazing miniature trees bear a crop of full size fruit, often the first year after transplanting. We offer Bartlett, Duchess and Seckle only. Price of Dwarf Pear Trees, 2 to 4 feet tall, number 6B304, \$3.25 each; 3 trees for \$9.00. Limit 3 trees to a customer.

PEACH TREE SPECIAL One year old commercial growers planting size. The big commercial planters prefer this size for economy and results. The trees are smaller because they are only 1 yr. old. Here's your opportunity to plant and purchase excellent peach trees at planters prices. Only 3 varieties available, order early.

BELLE OF GEORGIA—Midseason large white freestone with pink blush. A favorite. **ELBERTA** and **GOLDEN JUBILEE**, numbers and descriptions see above.

Offer number 6I303, your choice of above varieties, 1 yr., 12 to 18 inch planters size, 28¢ each; 3 for 75¢; 10 for \$2.35; 25 for \$5.63.

HISTORY OF OUR BUSINESS

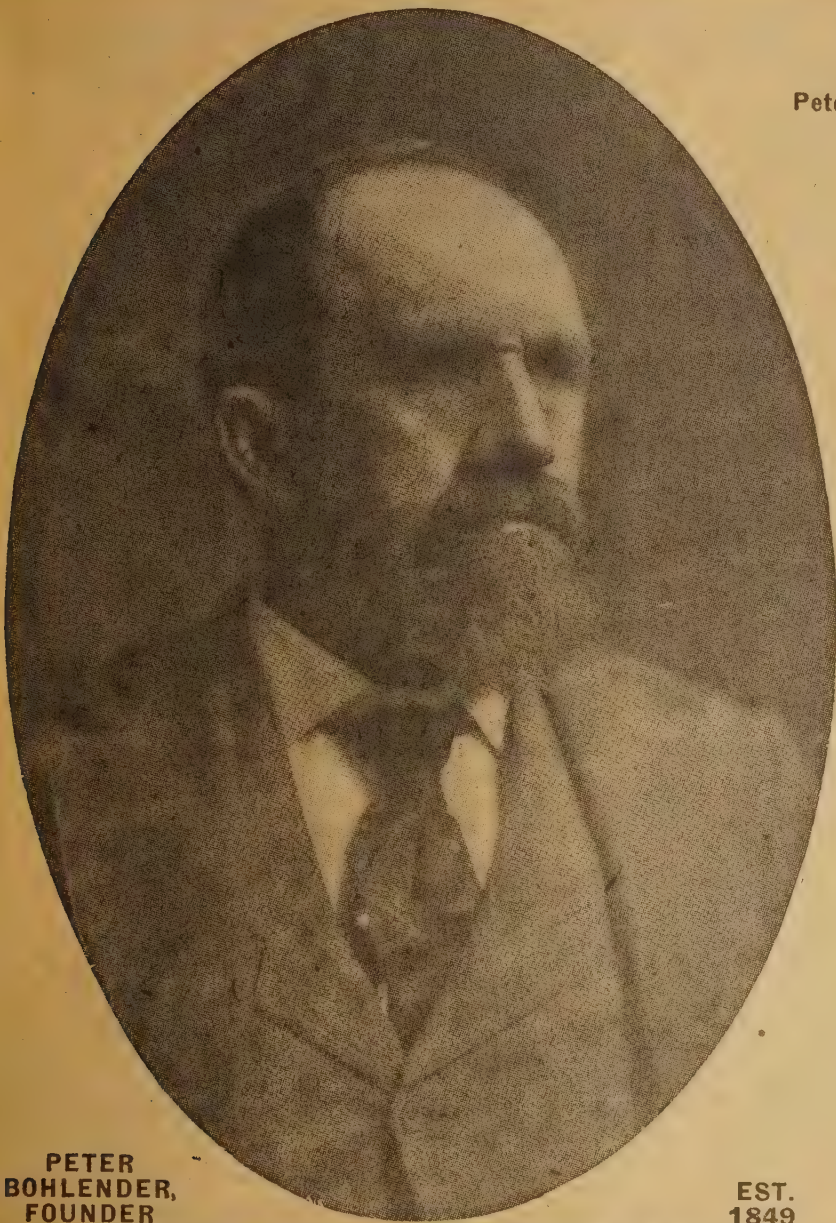

Peter Bohlender Stayed At Home While Gold Miners Rushed West To California

In 1849, the same year in which gold was discovered in California, Peter Bohlender started working in a nursery near Dayton, Ohio. His natural love of trees and plants, his intimate knowledge of their proper planting and care, led him to the nursery business. So with the smallest of shoestring beginnings he launched his career as a nurseryman.

The buildings were small and the market was restricted to fruit trees and a few ornamental shrubs. Slowly, but surely, business improved and the nursery expanded. People around the locality of the nursery found that they could depend on Peter Bohlender's selection of plants. These people told their friends and the fame of the little nursery spread.

Today in 1945 the small nursery has grown until we ship hundreds of thousands of plants from coast to coast each year. Today, Peter Bohlender's grandsons, Thomas B. Kyle and Howard Kyle, the third consecutive generation of the immediate family, are sole owners and operators of the business.

We attribute our success and growth to our location in the heart of the fertile Miami River valley of Central Ohio, where we have superlative conditions for the production of the finest plants. Because of our buildings and modern methods of operations Spring Hill is TODAY able to offer better plants, better service and better values for your money.

PLANTING RASPBERRIES, BLACKBERRIES, DEWBERRIES, YOUNGBERRIES, BOYSENBERRIES

The above varieties resemble one another in general cultural needs.

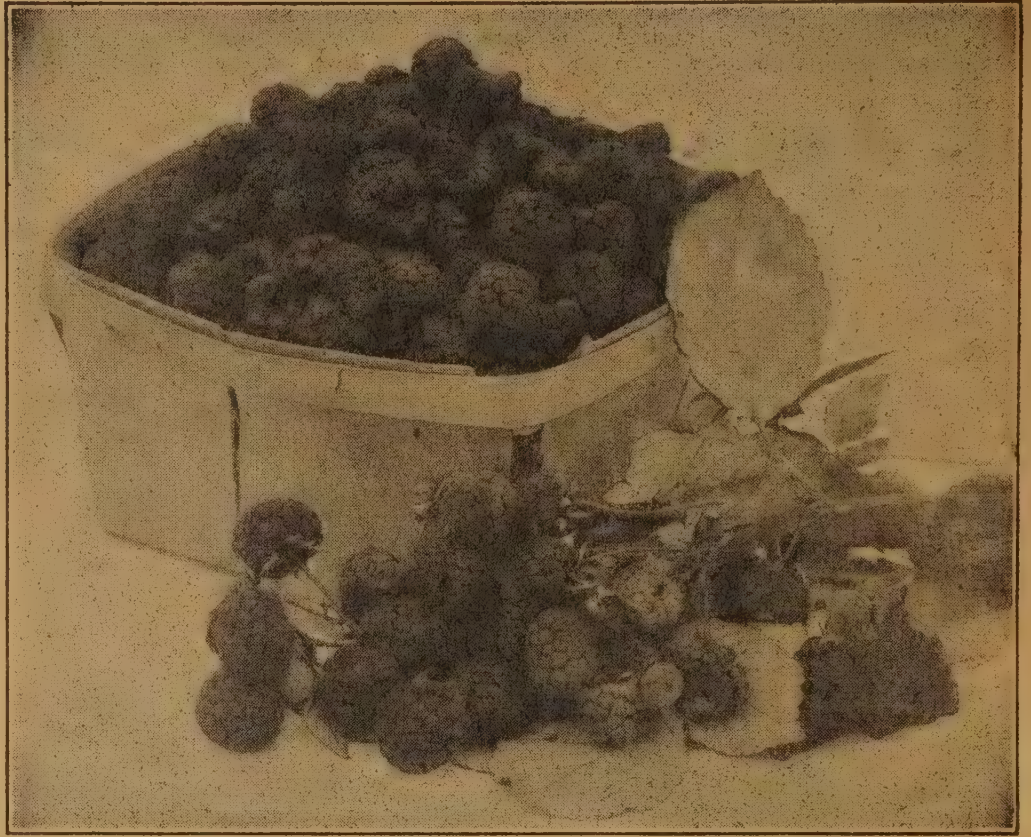

WHAT TO PLANT—Strong plants of any variety in this catalog are good.

WHERE—Plant in almost any soil. However, berries grow best in loamy, rich soil.

WHEN—Plant in early spring or fall.

HOW—Work ground evenly and thoroughly. Make hole large enough to accommodate roots without cramping. Cover crown of plant 1 to 2 inches, being sure the roots are not turned up or crowded. Firm dirt around roots but keep surface of ground loose. In mid-summer after canes have grown, pinch top about two feet above ground to make branch. The second year after harvesting the crop, cut out all old canes. Repeat year after year. Cultivation and fertility are essential for good, thrifty, disease-free plants.

PLANTING DISTANCE—Raspberries and Blackberries 3 ft. by 6 ft.; Youngberries, Boysenberries and Dewberries 6 ft. by 6 ft.

NEWBURGH A new introduction by New York Experiment Station. Newburgh has proven very successful in all sections. Very hardy, healthy, and tall growing. Fruit very large, firm, bright red with superb flavor.

GIANT LATHAM Latham is extra resistant to disease and insects. Vigorous grower that yields largest crops of mammoth sized berries. Famous for quality, bright red color and absence of seeds. Very hardy growing and producing in coldest parts of Northwest. The most popular and most planted of all Red Raspberries.

BLACK BEAUTY An excellent new luscious variety. Succeeds extra well and very disease-resistant. Popular with commercial growers, because it yields heavily and the firm fruits handle and stay on the plants longer.

CUMBERLAND The largest of all black caps; firm and a good shipper. One of the most profitable as a market berry. Most vigorous, healthy and heaviest yielding dependable black raspberry. Berries are excellent for canning, preserving and the large sweet berries sell at highest market prices.

NEW RED GIANT EVERBEARING INDIAN SUMMER The best Everbearing Red Raspberry. Earliest to ripen; bears a full crop in June and an immense crop in the fall. A sensation because of its size, flavor, and unusual beauty. Wonderful keeping qualities. Berries are glossy red, conical in shape, and of extra large size. The greatest all-purpose Raspberry. The fall crops, when Raspberries are scarce and therefore highly prized, are heavier than the earlier ones. Prices see below.

CULTURAL ADVICE FOR MOST SUCCESSFUL RASPBERRY GROWING

Plant dependable, highyielding and disease resistant varieties listed on this page. Any plants that show signs of disease should be removed and burned. Plant early as possible in the spring. In order to promote strong, stocky plants pinch tops of canes, when 18 inches tall, each summer, this makes more lateral branches resulting in heavier yields. Liberal quantities of manure and high nitrogen fertilizers are very beneficial. To maintain clean thrifty plants and control anthracnose use 1 lb. dry lime and sulphur to 5 gallons of water and spray in early spring before foliage starts. Also advisable to dust foliage throughout summer with sulphur. Cultivate regularly throughout the summer checking growth in late August because of danger from winter injury.

Dwarf Quick Bearing **CHERRIES**

Two decades of plant breeding and hybridizing by Prof. N. E. Hansen of South Dakota State College have produced new improved hardy dwarf cherry. Plant Hansen's new quick bearing cherries.

1. Easy to grow, high yielding.
2. Sure to produce 1st or 2nd year.
3. Excellent to eat, cook or preserve.
4. Small shrub like plant for small area, beautiful ornamental plants.

These wonderful plants have a two-fold purpose, being beautiful dwarf shrubs filled with useful wholesome fruit. Excellent planted in groups, as a hedge or screen and mixed in shrub border.

The entire plant is filled with a mass of lovely snow-white flowers early each spring. The handsome foliage is silvery-green and turns to bright red and gold in autumn. The fruit is larger than cherries but plumshaped.

Delicious to eat from bush and fine in sauce, jam and jellies. Grows 4 to 5 ft. tall and 3 to 4 ft. broad, should be planted 4 to 6 feet apart. Large fruiting age, 4 year old, 3 ft. tall, number 13A335, \$1.50 each; 3 for \$4.20. 2 yr., 2 ft. tall, number 13B335, 70c each; 3 for \$1.95; 10 for \$5.95.

WASHINGTON ASPARAGUS

Giant, rust-resistant strain, ahead of others in size, tenderness and long cutting period. The leading asparagus. The first fine vegetable of spring.

Like sweet corn, it is really good only when cut from your own garden and cooked immediately. Grow it as a beautiful ornamental plant if you have no vegetable garden.

NEW PARADISE ASPARAGUS

A grand new variety, producing younger and heavier than any other asparagus. The stems are large, tender, and green like Washington, have the same rust-resistant qualities, and an even milder flavor. Spring Hill strongly recommends Paradise as a new money-maker and a better variety that deserves all its acclaim and popularity. If you have only a limited space, plant Paradise; it yields so heavily.

PREMIER Dependable extra early, large, high quality, heavy yielding variety. A sure bearer therefore most planted of all strawberries. Self-pollenizing.

DORSETT New, hybridized by U. S. Dept. of Agriculture. A Premier cross, larger in size, superior in color and quality.

FAIRFAX Another Premier cross, introduced by U. S. D. A. similar to Dorsett in size and type but has darker firmer berries.

ROBINSON New, sensational, high yielding variety with extra large, bright cardinal red berries that retain their size to the last picking. Extra long fruiting season. Highly recommended.

AMBROSIA Ripens a month later than Premier. Self-pollenizing, extremely hardy and tall, maturing its high quality fruits off the ground.

BLAKEMORE Most planted berry in South. The most vigorous, easiest to grow and surest to yield. A colorful, firm high quality berry.

NEW MAJESTIC According to our records and results Majestic is destined to be the leading variety. Plants larger than Premier, with better roots and more runners. Only Premier seedling surpassing it for commercial production. Self-pollenizing. (New low price.)

SENATOR DUNLAP This grand old strain is probably the most popular variety in the Central states. Dependable, a sure bearer, tremendous yields of large high quality berries. A favorite for canning.

NOTICE!! The extended drought this summer, labor and many other factors have made this year's strawberry plant crop the smallest in years. Prices have increased substantially, nevertheless we advise you to order early for there will not be sufficient plants for the demand.

GIANT BLUEBERRIES

New giant U. S. Dept. of Agr. cultivated blueberries famous for size, flavor, profit, and beauty. The attractive plants are beautiful in flower and are handsome, dwarf, glossy foliaged shrubs you would be proud of in your yard or garden. A few plants are sufficient for fresh fruit pies, and canning. Highly profitable for commercial plantings. The beautiful clusters of pink buds and white bell-shaped flowers are followed by the sapphire blue-berries in big clusters, often as large as grapes. Two or more varieties should be planted together for good yields. Blueberries require acid soil. If soil is sweet or alkaline use peat moss or decomposed vegetable matter mixed with aluminum sulphate. The period of ripening covers several weeks. Plants last a lifetime and have no thorns. Easy to pick. Your choice of **CABOT**—early; **RANOCAS**—mid-season; **JERSEY**—late.

QUALITY GRASS SEED

*A Beautiful Lawn
adds to the charm of
your home*

**TO MAKE
A GOOD
LAWN**

IT'S ECONOMICAL TO BUY GOOD GRASS SEED

Inferior seed is costly in the long run. Spring Hill offers only the better grades of seeds at moderate prices.

Early spring from March to June is one of the best times for renovating; rebuilding or making a new lawn. The cool moist weather makes the grass grow fast and it stools or spreads out better than at any other time of year. **PLANT NOW FOR BEST RESULTS.**

Sow seed from early March to late May when the ground is moist. A well prepared seed bed is essential, so work your soil thoroughly six to eight inches deep. Add humus to heavy soils. Good seed is important and economical. Sow 1 pound of seed to 200 square feet of lawn; if soil is dry after sowing be sure to sprinkle. Mow as soon as tall enough, as mowing makes the plants stool out. If soil is not the best, fertilize with turf builder and reseed any bare spots. Spring Hill's seed formulas are dependable and reliable. They are the results of many years research and are blended from the World's most choice grasses.

SPRING HILL'S DELUXE EVERGREEN MIXTURE Exceptionally high quality rated as one of the three finest mixtures in America. Highest germinating fresh crop seeds with more seeds per pound and practically no weed seed or inert matter. This famous blend is the result of years in testing formulas. Plant for a quick steady turf. You cannot buy better or cheaper seed considering number of seeds per pound. **1 lb. 75¢; 3 lbs. \$2.15; 10 lbs. \$6.45; 25 lbs. \$15.50; 100 lbs. \$59.00.**

FANCY KENTUCKY BLUE GRASS Our most dependable and hardiest, easy to grow variety. Recommended for reseeding old lawns and pastures. It is economical to buy finest weed-free germinating seed. **1 lb. 60¢; 5 lbs. \$2.85; 25 lbs. \$12.50; 100 lbs. \$45.00.**

STANDARD EVERGREEN MIXTURE Made from practically the same formula as below. Will produce a beautiful weedless and sturdy lawn in two to four weeks. Permanent for hardy grasses predominate in ratio of four to one considered ideal by experts. Used extensively by parks, cemeteries and golf courses. **1 lb. 62¢; 5 lbs. \$2.95; 25 lbs. \$12.95; 100 lbs. \$47.50.**

SPRING HILL'S SHADY LAWN MIXTURE For areas where lawn has less than six hours of sunlight. A special blend of best shade loving grasses which grow well with little moisture, little sunlight and poor soil. **1 lb. 85¢; 3 for \$2.40; 10 lbs. \$7.95.**

Vesper Iris

NEW LONG BLOOMING VESPER IRIS

The attractive foliage of the vesper iris is studded with an unbelievable number of jewel-like flowers. Each plant is truly a mammoth bouquet in July and August, producing more flowers than any other iris. Ordinary plants produce 90 to 200 blooms, but well-cared-for plants produce actually up to 3,000 blooms. Especially easy to grow, being very hardy and not particular as to soil or location. Lovely, translucent, lavender blooms varied with markings of copper, lemon, orange, brown, and tyrian. So beautiful it is impossible to describe. Blooms at a very opportune time, between the late tall bearded iris and the fall blooms, during July and August. We highly recommend this as a sure surprise for you and your friends. Catalog No. 38A465, 25¢ each; 3 for 60¢; 5 for \$1.00.

Plants of Excellence... "Aglow with Beauty"

FOR THE *Garden of Today*

AMERICAN SHAMROCKS (*Oxalis*)—Continuous flowering. Lovely dainty pink flowers in clusters, attractive four-leaf clover like foliage. Bulbs not winter hardy, care for same as gladiolus or plant indoors. Excellent for potting and forcing. Blooms throughout the winter in your winter window garden. Choice blooming size bulbs. Number 52A472, 6 for 40¢; 12 for 65¢; 25 for \$1.15.

BUFFALO BERRIES (*Shepherdia*)—The metallic foliage looks as if dusted with silver. The tall silvery foliated plants are filled with misty soft yellow flower in spring. In late summer the branches and twigs are wreathed with thousands of large red berries the size and shape of currants. The fruits are rather sour and astringent but are highly prized by Indians who use them for jellies and jams as well as drying tremendous quantities of the berries to be used all winter long for seasoning sauces, etc. 3 yr. plants, 12-18 inches tall, Number 52C260, 45¢ each, or 3 for \$1.15.

CORNELIAN CHERRY (*Cornus Mascula*)—Beautiful golden blossoms in early spring before foliage followed by large scarlet cherries that contrast beautifully with the glossy jade green foliage. The fruits are edible and used for preserves. A valuable small shrubby tree to attract birds and add distinction to your planting. 3 yr., 30-36 inch plants, Number 52B261, 70¢ each; 3 for \$1.95.

THE WINTER HARDY BEGONIA (*Begonia Evansiana*)—Blooms profusely all summer. Grows best in semi-shade. North of Philadelphia it should be protected by winter mulching. Lovely pink flowers above attractive green foliage filled with red veins. Enjoy lovely pink begonias from spring to fall every year without replanting. In a moist shady location under shrubbery or the north side of a building hardy begonias grow and bloom better. Blooming size plants, number 52A469, 25¢ each; 3 for 60¢.

PINK SHASTA DAISY (*Clara Curtis*)—A new extra hardy and vigorous pink daisy. The lovely clear salmon pink flowers 3 to 4 inches across bloom from early August through September. The compact plants 2 ft. tall and 2 to 3 feet wide are filled with hundreds of blooms at a time. Absolutely hardy, easy to grow, succeeding in most all soils and locations. Strong blooming size pot plants, number 52A525, 30¢ each; 3 for 75¢.

NEW VIOLET ROYAL ROBE Exquisite fragrance, extra large flowers, unusually long stems, filled with an abundance of flowers. Rated the largest and richest colored of all hardy violets. Number 52A480, 65¢ each; 3 for \$1.75.

BIG APPLES on **DWARF TREES**
 Will Bear Next Year

Spring Hill's dwarf apple trees will bear bigger, more colorful high quality apples than most standard trees produce. The trees never grow large and may be planted 10 by 10 in your back yard, or in hedges 6 ft. apart. Each spring the branches are filled with fragrant pink buds and white blossoms as beautiful as any flowering crab. The blooms, foliage, fruit, and graceful miniature tree all make Spring Hill's dwarf apples ideal for landscaping in Gardens where space is restricted. Available in Red Delicious, McIntosh, Grimes Golden, Yellow Transparent; we reserve the right to substitute an equally good variety unless advised otherwise. 2 and 3 yr. old fruiting age, 2 to 4 ft. tall, \$3.50 each; 3 for \$9.75. Limit 3 trees per customer.
